Presents

BEST DOCTORS MUMBAI™ 2022

DigiMedia Today, is pleased to present the annual listing of "Top Docs Mumbai" 2022. This Special feature showcases the best names in the diverse fields of medicine in the city of Mumbai. This listing is derived on the basis of a peer survey of consultant doctors in Mumbai conducted by us; which is then reviewed by the staff of DigiMedia and a final listing is generated and presented here.

An overwhelming response was received but due to several constraints, 8-9 doctors were picked in each category. Our apologies to the other top doctors who were selected but could not be featured here this time

Padma Shri Dr. Amit Maydeo
Director- Gastroenterology, at Global Hospital,
Parel, Mumbai

Dr. Maydeo's research interest lies in GI Endoscopy, Interventional ERCP and 3rd Space Endoscopy. His work in Endotherapy of Chronic Pancreatitis, GI bleeding, CBD stones and 3rd Space Endoscopy are commendable. He did India's first POEM, STER & ARMS procedures in 2012 and Bariatric Endoscopy for weight management in 2018. He was awarded 'Padma Shri' for his contribution to the field of Medicine and Gastroenterology.

He has done over 350 heart transplants, 120 paediatric transplants and over 75 lung transplants, 70 LVAD implants and the first pediatric bilateral lung transplant in India on a 3 year old child.</p>	 <div> Dr. Mohan Menon Consultant, Medical Oncology MBBS, MD (Gen. Medicine), American Board Certified in Medical Oncology, Hospice and Palliative care and Internal Medicine, MBA </div> <p>Dr. Mohan Menon is a Consultant Medical Oncologist at the Sir H. N. Reliance Foundation Hospital. He has 22 years of experience practicing as a medical oncologist both in USA and India. Prior to coming to India, he was a Consultant Physician at Hartford Hospital in Connecticut and a Clinical Assistant Professor of Medicine at the University of Connecticut School of Medicine for 17 years. He is a visiting faculty member at the Gray Cancer Centre, Hartford Hospital. He completed his fellowship in Medical Oncology from the Roswell Park Cancer Institute, Buffalo, New York prior to which he completed a residency program in Internal Medicine at the University of Connecticut School of Medicine. He is American Board Certified in Medical Oncology, Internal Medicine and Palliative care and was one of the first physicians in the United States to be certified in both Medical Oncology and Palliative Care. He also has an MBA in Healthcare from Alvernia University.</p> <p>Additional areas of Interest:</p> <ul style="list-style-type: none"> • Cancer Symptom Control • Head and Neck Cancer • Lung Cancer • Breast and Gynaecologic Cancers
 <div> Dr. Tejas Dharia </div> <p>Vascular Interventional Radiologist Dr. Tejas Dharia works with a singular aim: improving patient comfort through reduced surgical morbidity. He employs technology-driven, minimally-invasive procedures that mostly involve no more than a needle-prick, instead of big surgeries, translating into significantly less post-operative discomfort and early discharges. He has attended prestigious medical institutions including Seth G.S. Medical College and K.E.M. Hospital and Tata Memorial Hospital. He has amassed a wealth of experience in his decade-long clinical practice. His extensive clinical expertise includes procedures like: Liver Cancer/Directed Therapy, Angioplasty for Diabetic Foot, Varicose Veins, Deep Vein Thrombosis, Biopsies and Drainage, Uterine and Prostatic Artery Embolisation. Associated as a Consultant Interventional Radiologist with Arogyanidhi, Criticare, Lilavati, Saifee, Jupiter, Nanavati Hospital, he has his private practice at: Dr Dharia's Mumbai Endovascular Centre, Samrat Building, Juhu Road, Santacruz (W.), Mumbai 400054. (www.drtejasdharia.com), (www.mumbaiendovascularcentre.com)</p>	 <div> Dr. Mayur H. Patel Director, Critical Care Medicine & Emergency Services MD, FCCP, FCCCM (HON) </div> <p>Dr. Mayur H. Patel is the Director and Consultant of Critical Care Medicine & Emergency Services at Sir H. N. Reliance Foundation Hospital and Research Centre. He completed his under graduate and post graduate studies from Seth G. S. Medical College and KEM Hospital, Mumbai. He has extensive experience in Critical Care of 35 years and has served in various capacities at reputed institutes in Mumbai. He is the Founder-Vice President & Life Member of Indian Society of Critical Care Medicine as well as Life Member of Association of Physicians of India. He is teacher for DNB-Critical Care, Diploma and Fellowship courses of ISCCM and Indo-Australian Critical Care Teaching Program. He was awarded Honorary Fellow of College of Critical Care Medicine, Fellow of American College of Chest Physicians – FCCP, Raj Nanda Pulmonary Disease Research Trust Fellowship. He has many publications in national and international journals. He has participated and organized various conferences.</p>	 <div> Dr. Muffazal Lakdawala Director, Department of General Surgery and Minimal Access Surgical Sciences MBBS, MS (General Surgery) </div> <p>Dr. Muffazal Lakdawala is the Director and Consultant at the Department of General Surgery and Minimal Access Surgical Sciences at Sir H. N. Reliance Foundation Hospital and Research Centre. He has a rich experience in the field of Minimally Invasive Surgical Procedures for Metabolic and GI Oncology Surgeries. Dr. Lakdawala has been awarded with the Best Surgeon in the World by the American Society for Metabolic and Bariatric Surgery and World Master Educator Award by International Federation of Surgery for Bariatric and Metabolic Surgery. He specialises in Single Incision surgery where he has performed the largest number of cases in the world. He has been awarded an honorary membership by the Korean, Japanese & Chinese Societies of Surgery. He is Prof. Emeritus at BYL Nair Hospital teaching young surgeons in the field of laparoscopic surgery and is the Hon. Surgeon to the Vice President of India.</p>	 <div> Dr. Pankaj Agarwal Senior Consultant Neurology, Head – Movement Disorders Clinic and Incharge Deep Brain Stimulation (DBS) program at Global Hospital, Parel, Mumbai. </div> <p>Dr. Pankaj Agarwal heads the Deep Brain Stimulation (DBS) Program at Global Hospital, Parel, Mumbai, that represents cutting-edge, advanced, specialty neuroscience work, which helps to improve quality of life of people with Parkinson's, Dystonia, Tremors and other movement disorders. With over 18 years of experience in managing patients with various neurological ailments he also has to his credit several awards, honours and research publications.</p>

<div>  <div> Dr. Nimit Shah Consultant, Cardiology (Interventional Cardiology) MBBS, MRCP (UK), MD in Cardiovascular medicine (Dundee, UK), CCT in cardiology (Oxford, UK) </div> </div> <p>Dr. Nimit Shah is a Consultant in the Department of Cardiology at Sir H. N. Reliance Foundation Hospital and Research Centre. He has more than two decades of international experience in the field of Cardiology. He has vast experience in both general and interventional cardiology. He is competent in performing simple and complex coronary intervention using both femoral and radial (80-90%) access.</p> <p>His Interventional Cardiology experience includes:</p> <ul style="list-style-type: none"> • Coronary angiogram and Right heart catheter studies • Coronary Angioplasty: basic and complex including Left Main (LM); bifurcations (dedicated bifurcation stents); Chronic Total • Occlusions (CTOs); vein graft angioplasties; primary angioplasties, rescue angioplasties • Coronary Rotablation • Coronary Intravascular Ultrasound (IVUS) and • Coronary Fractional Flow Reserve measurement (FFR) • Optical Coherence Tomography (OCT) and Optical Frequency Domain Imaging (OFDI) • Excimer laser coronary angioplasty (ELCA)-Using adjunctive devices such as fine cross catheter, corsair catheter, guideliners, • CrossBoss and Stringray system. • Pacemaker implantation. (First leadless pacemaker implanted in west India). <p>His general cardiology experience includes:</p> <ul style="list-style-type: none"> • Transthoracic echocardiogram • Trans-esophageal echocardiogram • IABP (Intra-Aortic Balloon Pump) insertion • Pericardiocentesis • Supervising and reporting Stress Tests, TTT (Tilt Table Test), Holter Tests and Cardioversions. <p>He is a proctor for IVUS, Rotablation, complex angioplasties and for laser angioplasty where he visits various centres in India to teach and perform complex high risk cases.</p>	<div>  <div> Dr. Nimish Shah Consultant, Pulmonary Medicine MBBS, MRCP (UK), MRCP (Respiratory) CCT (LONDON), PG Cert in Clinical Education (Kings College, London) </div> </div> <p>Dr. Nimish Shah is a Consultant, Pulmonary and Sleep Medicine at Sir H.N. Reliance Foundation Hospital and Research Centre.</p> <p>He successfully completed training in internal medicine and attained his MRCP (UK). Following which he trained in pulmonary medicine in the prestigious London Deanery at the Kings and Guys and St Thomas' rotation. Here he attained his specialty certificate examination in respiratory medicine. In addition to general pulmonary medicine, Dr. Shah has worked extensively at the renowned Lane Fox Respiratory Unit in managing acute and chronic respiratory failure. He has also worked at the Guys Sleep Centre, the largest in Europe. This involves setting up of CPAP for sleep apnoea and BiPAP for complex sleep apnoea and or respiratory failure. He has been involved in clinical trials in the same. He has a keen interest in airways diseases and allergy.</p> <p>He has trained in interventional bronchoscopy at the Royal Brompton Hospital and also has a Level 1 certification in Pleural Ultrasound.</p> <p>He has experience in difficult asthma and allergy as well.</p> <p>He is also managing the Sleep Lab at Sir H. N. Reliance Foundation Hospital.</p>
<div>  <div> Dr. Nilesh G Satbhai Senior Consultant & Head - Plastic, Aesthetic, Hand & Reconstructive Microsurgery at Global Hospital, Parel, Mumbai </div> </div> <p>Dr. Satbhai specializes in Hand Surgery, Brachial Plexus, Nerve Surgery & Reconstructive Microsurgery. Dr. Satbhai and his team have performed the first three successful bilateral hand transplants of Western India. These transplants are major milestones in the medical history of Mumbai. His experience and expertise have resulted in the successful salvage of the upper and lower limbs of several patients.</p>	<div>  <div> Dr. Nilen A Shah Consultant, Orthopaedics MBBS, DOrth, MS Orth, MCh Orth (UK) </div> </div> <p>Dr. Nilen Shah is a Consultant Orthopaedic and Joint Replacement Surgeon at Sir H. N. Reliance Foundation Hospital and Research Centre. He has more than 33 years of experience. He currently performs over 1200 Knee Replacements a year and he has pioneered the use of Mini Subvastus Knee Replacements in India. He has combined the use of minimally invasive muscle sparing approach for Knee Replacements with modern technology. He has used and published paper on Limited Femoral Navigation during TKR and now uses Robotic Technology with Subvastus approach for superior results. This is a combination on minimal invasive muscle sparing approach for knee replacement together with new modern technology with accurate and consistently reproducible results. The patient typically starts walking the same day of surgery and ready to go home either the same day or next day. This is possible as he has carried out, perfected and published papers on the technique of managing pain in the post-operative period. He has also carried out stellar research on several aspects of Knee Replacements (obese knees, valgus knee, stiff knees, bloodless knees replacements, morbidity after knee replacement, early recovery after knee replacement, partial or total knee replacement etc). He has published papers on these and other subjects in reputed international and national journals. He is a regular faculty for Joint replacement conferences in India and abroad. He specializes in Knee Resurfacings (Partial knee Replacements), Total Knee Replacements, Revision Knee Replacements and Hip Replacements. Dr. Nilen Shah has extremely friendly approach and he advises patients as he would to his own family member. Dr. Nilen Shah is also the Director for Short Stay Surgery, Orthopaedic at Sir H. N. Reliance Foundation Hospital.</p>
<div>  <div> Dr. Neeta Warty Director, Endoscopic Gynaecology MD, GRO, FRCOG </div> </div> <p>Dr. Neeta Warty is the Director, Endoscopic Gynecology at Sir H. N. Reliance Foundation Hospital And Research Centre. She has developed the Laparoscopic Shirodkar Sling Surgery for Uterine Prolapse Recognized in Shaw's Textbook of Gynaecology.</p> <p>She has been Awarded Honorary FRCOG (Fellowship Ad Eundem) by the Royal College of London for her contribution to the Advancement of the Science and practice of O&G. Dr. Warty has Pioneered Laparoscopic and now Robotic Unification of Bicornuate Uterus, Laparoscopic Management of Interstitial Ectopic Pregnancy with International Recognition for the same. She has Headed the Recipient Team that performed India's First Uterus Transplant, and the Worlds First Laparoscopy Assisted Uterine Transplant. The Transplanted, Uterus Housed and delivered a Baby Girl making the Endeavor a Success. Dr. Warty's name has been mentioned in Limca and Guinness Book of World Records for Removal of Largest Fibroid along with Dr. Sinha which she has now Bettered By Removing a 9.028 kg Fibroid involved in the Original Research at the Indian Council of Medical Research - National Institute of Research in Reproductive Health (ICMR-NIRRH) Patent has been granted. Felicitated as a Woman Achiever at (NMRL) The Naval Materials Research Laboratory, (DRDO) Defense Research and Development Organizations, Ministry of Defense, Government of India. Helped Start and Run the NSCI Jumbo – Covid-19 facility, Mumbai and has regrouped her team for the Second Wave at Poddar Hospital and Nehru Science Center Facility.</p>	<div>  <div> Dr. Deepu Banerji Consultant Neuro Surgery </div> </div> <p>Prof. Deepu Banerji is a Senior Consultant in the Dept. of Neuro Surgery at Jaslok Hospital & Research Centre. He has more than 35 years of experience including as a faculty in some of the prestigious Institutes like NIMHANS, Bengaluru & SGPGIMS, Lucknow. He is a pioneer in Endoscopic and Skull Base Surgery with special interest in Pituitary Adenoma and skull base complex tumours. He has expertise in minimally invasive brain and spine surgery. He did the first Artificial Cervical Disc Replacement Surgery in Western India in 2007. He has numerous research papers in National and International Journals. He has been President of Neurology Society of India, Skull base Surgery society of India and Bombay Neuroscience Association.</p>

 <div> Dr. Nitin Dange Senior Consultant- Neurosurgery and In-charge Interventional Neurology, at Global Hospital, Parel, Mumbai </div> <p>Dr. Dange comes with over 16 years of comprehensive experience in specialties like Endovascular Neurosurgery, Interventional Neuro Radiology and Neuro Surgeries. He has largest experience in using Contour Intravascular device for aneurysm treatment in Asia. Also specialised in Conventional Neurosurgery, Skull Base Surgery, Minimally Invasive Neurosurgery, Spine Surgery, Pediatric Neurosurgery, Navigation Guided Stereotactic and complex Neurosurgeries. He received Abdul Kalam Excellency Award in 2017.</p>	 <div> Dr. Shreedhar Archik Senior Consultant - Orthopedics, at Global Hospital, Parel, Mumbai </div> <p>Dr. Shreedhar Archik is an alumni of Orthopedics, KEM hospital, Mumbai. He was trained at Nuffield Orthopedic Center, Oxford,UK after his MS orthopedics. With over 25 years of experience, he is known for joint replacement, revision surgeries, joint preservation surgeries and expertise in osteotomies around the knee. He has published his work on preserving hips affected by avascular necrosis using stem cells.</p>
 <div> Dr. Talha Meeran Consultant, Advanced Cardiac Sciences and Heart Transplant MBBS, MD (Internal medicine), FACC (Cardiology, USA) </div> <p>Dr. Talha Meeran is a consultant Cardiologist in the department of Advanced Cardiac Sciences and Heart Transplant at Sir H. N. Reliance Foundation Hospital and Research Centre. He has a rich global experience of over a decade in the field of Cardiovascular Medicine. Dr. Meeran specializes in advanced heart failure and cardiac transplant with vast experience in pulmonary arterial hypertension (PH). He is amongst a select handful of USA board-certified cardiologists in India with advanced certification in managing post-cardiac transplant patients and patients with artificial heart pumps (LVAD). He specializes in the diagnosis and treatment of heart and vascular diseases such as advanced heart failure, PH, rare forms of cardiomyopathy (eg: cardiac amyloidosis, sarcoidosis and ARVC), coronary artery disease and heart rhythm disorders. He is skilled at performing cardiac procedures such as coronary angiogram, right heart catheterization (with vasoreactivity testing) and cardiac biopsy. He serves as the co-chair of the heart-lung transplant sub-committee of the Zonal Transplant Coordination Committee (ZTCC), Mumbai. He is also an executive committee member of the Society for Heart Failure and Transplant, India. He has a Fellowship in Advanced Heart Failure, Cardiac Transplant, Pulmonary Hypertension and Mechanical Circulatory Support (Pittsburgh, USA). He has co-authored 10 research papers and 11 conference publications.</p>	 <div> Dr. Prabha Yadav Director, Plastic and Reconstructive Surgery MBBS, MS (Plastic Surgery) </div> <p>Dr. Prabha Yadav is Director and Consultant at the Department of Plastic and Reconstructive Surgery at Sir H. N. Reliance Foundation Hospital and Research Centre. She has more than 35 years of rich national and international experience. Dr. Prabha Yadav has been actively involved in teaching post graduates over last 37 years. In past she was Professor & Head of the Plastic & Reconstructive Surgery Department at TATA Memorial Hospital. She has conducted number of workshops and meetings and developed fellowship programmes for Plastic and Reconstructive surgeons to master microvascular surgery practice in country. Having trained over 150 Reconstructive Microvascular surgeons in India and neighbouring countries she is instrumental for current Reconstructive Microvascular surgery in India. Dr. Prabha Yadav held prestigious position of “President of Association of Plastic Surgeons of India” in 2015 and conducted a very successful Golden Jubilee Conference of the association in the same year. She has published a book titled “Mastering Cancer Reconstructive Surgery with Free Flaps”.</p>
 <div> Dr. Sudhanshu Bhattacharyya Consultant Cardiovascular and Thoracic Surgeon MBBS, MS (General Surgery), MS (Thoracic Surgery), FIACS </div> <p>He was a Professor in cardiovascular and thoracic surgery at KEM Hospital, Bombay University. After MS (Thoracic Surgery), he worked under renowned Cardiac Surgeon and world pioneer in coronary surgery, Dr. Dudley Johnson. Apart from being an accomplished Cardiac Surgeon, Dr. Bhattacharyya has designed an Atrial Retractor for Mitral Valve Replacement and a retractor for taking down bilateral Internal Mammary Arteries. He is the world's pioneer in using Bilateral Internal Mammary Arteries for Total Arterial Revascularisation on both on pump and beating heart from the year 1993 onwards with excellent long term results.</p>	 <div> Dr. Smita Nagaonkar Consultant & Section Co-ordinator, Ear, Nose Throat MBBS, MS (ENT and Head-Neck Surgery), DNB (Otorhinolaryngology and Head and Neck surgery) </div> <p>Dr. Smita Nagaonkar is a Consultant at the Department of ENT at Sir H. N. Reliance Foundation Hospital and Research Centre. She has 15 years of rich experience at reputed Healthcare Institutions. After finishing her MBBS and MS (ENT and Head-Neck Surgery), she completed her DNB in Otorhinolaryngology and Head and Neck surgery. She did a Clinical fellowship at Queen Elizabeth Hospital, Adelaide South Australia 2005 and John Hunter Hospital, Newcastle, NSW, Australia 2007. After her MS, Dr. Nagaonkar worked at Hinduja National Hospital and Medical Research Centre for 4 years in the capacity of clinical assistant, associate and associate consultant, before leaving for Australia. She was then Consultant ENT surgeon, at Mayo Private and Manning Base Hospitals, NSW Australia since 2008, till she joined our institution in September 2014 Dr. Nagaonkar was actively involved in conducting FESS workshops at national and international levels. She has numerous presentations and publications to her credit.</p>

He is an alumnus of Sankara Nethralaya, Chennai, Cleveland Clinic Foundation, Cleveland, Doheny Eye Institute-USC, Los Angeles and Jules Stein Eye Institute-UCLA, Los Angeles. He specializes in Refractive Cataract Surgery & Refractive Surgery (LASIK). He has extensive surgical experience in the complete range of refractive surgeries including LASIK, Femto-LASIK, SMILE, Presbyond LASIK, Topoguided LASIK (Contura), Phakic IOL, Presbyopic Lens Exchange and surgical management of keratoconus. Being an early adopter of the latest technologies in laser refractive surgery, he was the first to start Presbyond LASIK in India in 2010 and SMILE in 2011. He has a rich experience of cataract surgery and Femtosecond Cataract Surgery (FLACS) with premium lenses such as Toric, Trifocal and EDOF lenses for spectacle free vision after cataract surgery. He is a speaker at national and international conferences and trains other surgeons in LASIK. He has conducted clinical trials for LASIK for Carl Zeiss, Germany.

Dr. Vaibhav Bagaria

Director, Orthopaedics (Hip and Knee Specialist Surgeon)
MBBS, MS, FCPS, Dip SICOT

Dr. Vaibhav Bagaria is the Director and Consultant Surgeon of Department of Orthopaedic Surgery at Sir H. N. Reliance Foundation Hospital and Research Centre. He has 15 years of experience in performing specialised hip and knee replacement surgeries and is trained in latest technology like navigation, minimally invasive and robotic surgeries. An avid researcher, he is Indian President of International Orthopaedic body – SICOT and serves on editorial board of many prestigious scientific journals.

Dr. Vivek Agrawal

Consultant Neurosurgery
MBBS, MS (General Surgery), M.Ch.(Neurosurgery)

Dr. Vivek Agrawal is a Consultant Brain, Spine and Interventional Neurosurgeon at the Department of Neurosurgery at Sir H. N. Reliance Foundation Hospital and Research Centre. He has 12 years of National and International experience in various reputed institutions.

Dr. Agrawal is a merit list holder in M.Ch in Neurosurgery after which he pursued Fellowships in Interventional Neuroradiology, Zurich University Hospital, Switzerland, Minimal Invasive Neurosurgery – NSW and Trauma care – The Alfred, Australia.

He has recently completed training in Conventional and Minimal Invasive Spine Surgery from Technical University Hospital, Munich, Germany. Dr. Agrawal was a Senior Registrar followed by Assistant Professor, Department of Neurosurgery at Grant Medical College and Sir J. J. Group of Hospitals. During his fellowship at The Alfred, he was awarded The Alfred Trauma Research Development Award for his work at that time. He has won the Best Dissertation and Best Research Paper Award by Research Society, GMC, Mumbai as well as Best Paper award by Neurotrauma Society of India / Bombay Neurological Association and has received several scholarships in his field of expertise.

Apart from multiple presentations and publications in international and national journals / conferences, Dr. Agrawal has also done advance research projects in Animal Experiment – Hemostatic effect of Human Fibrin Glue on bleeding brain surface of Wistar Rats; Role of Hyperbaric oxygen therapy in acute traumatic brain injury.

Additional Speciality Interests:
Interventional Neurosurgery
Spine Surgery

Dr. Vijay Haribhakti

Director, Oncosciences, Surgical Oncology
Head & Neck, Breast Reconstructive and
Microvascular Surgery
MBBS, MS (General Surgery)

Dr. Vijay Haribhakti is Director of Oncosciences and Consultant Surgical Oncologist and Microvascular Surgeon at Sir H. N. Reliance Foundation Hospital and Research Center. He has 35 years of experience. Dr. Haribhakti's academic contributions have been extensive, with numerous publications in indexed international journals, text-book chapters and a book titled “Restoration, Reconstruction and Rehabilitation in Head and Neck Cancer”, published by Springer International in 2019. He has been instrumental in setting up the “One-stop Breast Clinic” at our hospital which is geared for screening, early diagnosis and comprehensive patient care under a single roof.

Dr. Suresh Advani

Mentor, Medical Oncology
MBBS, MD (General Medicine), FICP, MNAMS, FNAMS

Dr. Suresh Advani is a Mentor and Consultant with the Medical Oncology Department at Sir H. N. Reliance Foundation Hospital and Research Centre. He has more than four decades of experience in the field of Medical Oncology. Dr. Suresh Advani graduated from Bombay University in 1969 securing first position in Physiology and Anatomy and completed MD (General Medicine) in 1973. He underwent special training in Bone Marrow transplantation procedure and medical oncology at Fred Hutchinson Cancer Research Centre, Seattle, Washington, USA under International Cancer Research Technology Transfer (ICRETT), 1981 followed by Fellowship at Yamagiwa-Yoshida Memorial International Cancer under a Study Grant of the International Union against Cancer (UICC) in 1986 and pioneered the establishment of Bone Marrow Transplantation in India. Dr. Advani has been involved with Medical Oncology/Haematology for the last four decades. He is well versed in both modern Medical and Paediatric Oncology and is currently working with biological therapeutics for targeting specific molecules on the cancer cells. A “Padma Bhushan” (2012) awardee, Dr. Advani has over 600 publications to his credit. He has been honoured with numerous awards and has presided over many professional bodies. He was Professor, Medical Oncology at the Tata Memorial Hospital and sits on the editorial board of many scientific Journals.

Dr. Pritam Kataria

Consultant, Medical Oncology MBBS, MD (General Medicine),
DM (Medical Oncology and Haematology)

Dr. Pritam Kataria is a Consultant with the Medical Oncology department at Sir H. N. Reliance Foundation Hospital and Research Centre, Mumbai. He has More than 7 years of rich clinical experience. Dr. Pritam Kataria is trained in Bone Marrow Transplantation. His field of interest includes solid malignancies like lung, breast, colon, prostate, gastro-intestinal, Hepato-biliary tumours and bone sarcomas. He specializes in haematological malignancies like lymphoma, leukaemia and myeloma. He has received travelling grant for ESMO Asia from ISMPOCON as a reward for the best paper.

He has achieved various awards in the academic arena. He has been a faculty at various conferences at the national and international level.

Dr. Pritam Kataria has authored 16 publications and 2 conference papers.

Dr. Sanket S. Mehta

Consultant, Surgical Oncology
DNB, Surgery

Dr. Sanket S. Mehta is a Gastro-intestinal and Gynaec cancer Surgeon at Sir H. N. Reliance Foundation Hospital and Research Centre. He performs a diverse nature of open and minimal invasive surgery including Laparoscopic and Robotic colorectal surgery, distal pancreatectomy, gastric cancer surgery, hepato-pancreatobiliary surgeries, ovarian cancer surgery, endometrial and cervical cancer surgery. He has 16 years of work experience in Surgical Oncology (Gastro-intestinal & Gynaecology Oncology). Dr. Mehta has pioneered Cytoreductive surgeries and HIPEC in India and has one of the largest series of these surgeries in India. He also regularly performs complex hepato-biliary surgeries using the latest Intra-operative ultrasound and laparoscopic techniques. He regularly performs Laparoscopic and Robotic surgery for a variety of GI and gynaec cancers.

Additional Speciality Interest:

- Laparoscopic and Robotic Surgery
- Advanced and Recurrent Ovarian Cancer Surgery
- Cytoreductive Surgery and HIPEC
- Intra-operative Ultrasound Guided Liver Surgery

Dr. Shweta Bansal

Physician, Oncology
DNB Paediatrics, PHO- BMT fellowship (NUH, Singapore)
Paediatric Haemato- Oncologist and Bone Marrow Transplant

Dr. Shweta Bansal is a Consultant Paediatric Haemato-Oncologist at Sir H. N. Reliance Foundation Hospital and Research Centre. She has done her specialist training from Tata Memorial Hospital, India followed by bone marrow transplant training at National University hospital, Singapore. Also did IOP fellowship from St. Jude Children's Hospital, USA. She has worked extensively in the field of Paediatric Oncology. She received best paper award at St. Jude Viva conference, Singapore 2010 For eliminating cranial radiation from Childhood Leukemia protocol and showing excellent results by treating with chemotherapy alone. She also received the prestigious Fellowship award at SIOP Berlin 2008 to present an oral paper on the role of metronomic therapy in Acute Promyelocytic Leukemia. She has authored many seminal articles in national and international journals. She is an associate editor of IJMPO, India's top journal in oncology. She is also an ethics committee member at ICMR, NIIH. In the past, she has served as Editor-in-Chief for South Asian Journal of Cancer - the official journal of SAARC Federation of Oncology and as newsletter editor of Marrow Donor Registry of India.

She was felicitated by Society of Oncology, Patna in 2010 for work in the field of Paediatric Oncology and is an active member of Asian Childhood Cancer Alliance (ACCA) and is on the advisory board of India's foremost Childhood cancer NGOs Cankids and DigiSwasthya.

Dr. Pankaj Parekh

Mentor, Paediatrics
MD (Paediatrics), Diploma in Child Health (DCH)

Dr. Pankaj Parekh is a Mentor and Consultant with the Paediatrics Department at Sir H. N. Reliance Foundation Hospital and Research Centre. He has more than 40 years of vast experience in treating Paediatric cases. Dr. Parekh is a leading Paediatric consultant of South Mumbai. He has been in private practice since 1978. He

joined Sir H. N. Hospital in 1987 as Honorary Paediatrician. Dr. Parekh was also Paediatrician to the household of his Excellency, Governor of Maharashtra (1980).

Additional Speciality Interests:

- General Paediatrics
- Paediatric Infections
- Vaccinations and Immunization.

Dr. Prashant Nyati

Consultant Surgical Oncology – Gynaecologic &
Robotic Oncosurgeon
MBBS, D.N.B (Obstetrics and Gynaecology)

Dr. Prashant Nyati is a Consultant in Surgical Oncology (Gynaecology Oncology) at the Oncology department at Sir H. N. Reliance Foundation Hospital and Research Centre. He has 15-year experience in Gynaecologic Oncology. After having completed MBBS and DNB in Obstetrics & Gynecology, he received his specialty training in Gynecologic Oncology at Tata Memorial Cancer Centre, Mumbai. He has completed advanced training in Robotic Surgery & advanced ovarian & endometrial cancers as a part of Traveling Scholars Program sponsored by IGCS (International Gynecologic Cancer Society) at Mayo Clinic (Rochester, USA), UCI (University of California) Irvine, USA and USC (University of South California) & Keck School of Medicine, Los Angeles, USA. Dr. Nyati is specialist Women's cancer Surgeon for Prevention and Early detection of Cervical Cancer, Ovarian cancer, Endometrial Cancer and Vulvar Cancer. He provides Comprehensive tailor-made Empathic Treatment with team approach, along with Palliative care in terminally ill patients. Dr. Nyati has successfully managed Young patients conservatively in view of fertility preservation. With sincere efforts, technical advantage and strong determination, Dr. Nyati has added an edge to the comprehensive treatment with empathic care for patients with Gynecological Cancer.

Areas Specialty Interest:

- Creating Cancer Awareness by lectures and seminars for Cancer Prevention & Early detection, along with Screening and Management of premalignant lesions.
- Robotic surgery for Endometrial cancer, cervical Cancer & Inguinal lymph node dissection.
- Fertility sparing (Conservative surgical management) for young eligible patients with early stage Ovarian, Cervical and Endometrial cancer.
- Ultra Radical Cytoreductive Surgery (CRS) for Ovarian and Uterine cancers (Primary/ Recurrent) with Exenteration.
- HIPEC & IP Chemotherapy, Comprehensive care for patients from diagnosis to palliation.
- Vulvar surgeries with Plastic reconstruction and Robotic Inguinal lymph node dissection.
- Cervical ,Ovarian, Endometrial, Vulvar, Vaginal Cancer.
- Combine team approach with Medical Oncologist ,Radiation Oncologist and Other Surgical subspecialties for a better outcome.

Dr. Rahul Verma

Director, Paediatrics Sciences
MBBS, MD, DCH, MRCP (UK)

Dr. Rahul Verma is the Director and Consultant for the Department of Paediatric Sciences at Sir H. N. Reliance Foundation Hospital & Research Centre. Dr. Verma studied and obtained his MD (Paediatrics) from Seth G S Medical College and KEM Hospital, Mumbai and his MRCP (Paediatrics) from the Royal College of Physicians in UK, while working at prestigious institutes like St. Thomas' Hospital and Great Ormond Street Hospital for Children, London (UK). Dr. Verma has 25 years of experience in India, managing very small preterm and high risk babies with a goal towards intact survival. Dr. Verma works closely with a team of Paediatric super-specialists to provide state of the art holistic medical care to children. He and his team are also running a successful DNB teaching programme as part of his academic commitments.

Dr. Shivaprakash

Director, Paediatric Cardiac Sciences
MBBS, MS (General Surgery), MCh
(Cardio-thoracic and Vascular Surgery)

Dr. Shivaprakash, widely known as Dr. Shiva, is the Director and Consultant of Department of Paediatric Cardiac Sciences at Sir H. N. Reliance Foundation Hospital and Research Centre. He has a vast experience of over 30 years in the field of Paediatric and Congenital Heart Surgery. He is the former President of the Paediatric Cardiac Society of India (2016 – 2018). His Research and Academic interests span through the specific problems in Congenital Heart Disease in the developing world, and the development of cost-effective management in Paediatric Cardiac Surgeries. He has more than 65 publications in indexed leading journals of the world. Many of them are innovations in congenital heart surgery.

IN CONVERSATION

DR SANTANU SEN

Senior Consultant & Head of Paediatric Oncology & BMT in Kokilaben Dhirubhai Ambani Hospital talks to Outlook about the impact of COVID on hematology and oncology patients.

What has been the impact of COVID on cancer patients? What has been the impact of COVID on cancer patients?

Cancer patients have been hit particularly hard by COVID. Not only are they at increased risk of getting infected from COVID due to their poor immunity resulting from their cancer, and from the chemotherapy or radiotherapy that they are receiving, they also suffer from more severe complications. Cancer is a recognised risk factor for increased susceptibility to COVID and specifically patients with blood, lung or metastatic cancers are particularly susceptible to severe complications from COVID.

A lot of cancer patients are scared to come to the hospital for their treatment. What is your opinion on this?

This worry is mainly due to fears of exposure to COVID patients. But, in fact, all hospitals have procedures in place to isolate and keep suspected and confirmed COVID cases away from other patients. In fact, such delays can lead to rapid progression of disease and can result in increased death rates and poor outcomes. Generally, it is recommended that cancer patients should always continue with their treatment unless specifically advised by their treating physician.

A DOCTOR WITH A HEALING TOUCH

If a cancer patient get COVID, would you still continue his treatment?

This really depends on severity of the COVID infection, the type of cancer he has and what treatment he is on present. It is very difficult to make a universal recommendation, but in the majority of cases, if possible, we would elect to stop cancer therapy and treat the patient for COVID first and restart cancer treatment after recovery.

How has COVID affected thalassemia patients?

Thalassemia patients have been particularly badly affected by COVID. Firstly, there are some indications that COVID itself might be more serious in thalassemia patients. This is because most thalassemia patients are severely anaemic and have chronic dysfunction of liver and heart. These puts them at increased risk when they contact COVID. Secondly, all thalassemia patients need a blood transfusion every 2 weeks and most unit will refuse admission to a COVID patient. The resultant anaemia increases mortality for thalassemia patients with COVID. In addition, many private and volunteer managed thalassemia transfusion centres has also shut down, leaving patients struggling to make alternate arrangements at the last moment.

How has COVID affected Blood Bank services?

Blood Banks literally are the life blood of thalassemia and cancer patients. Voluntary donations are needed to keep Blood Bank services running and this has been severely affected by the pandemic. As a result, Blood banks are struggling to find suitable and adequate units, and patients are having to wait for longer periods without any available transfusions. The sudden lack of of availability of blood has left thalassemia and many cancer patients quite helpless at times!

As a transplant physician, are you still doing BMT for your patients?

COVID has been a very difficult time for patients needing a BMT. During the initial phase of the pandemic we had elected to stop and delay all transplants completely till we have greater understanding of the infection. But this means that in some cases we have a risk of disease progression while

waiting for a BMT. Currently, with less number of COVID cases, we are continuing with our work of life saving transplant operations, but also keeping an watchful eye on the developing situation due to the new Omicron strain.

Should cancer patients get the COVID vaccine?

Cancer patients are at increased risk of morbidity and mortality from COVID. Though data on efficacy and safety of COVID-19 vaccination in patients with cancer is limited, the benefits of getting vaccinated are more than the risks. All patients who have completed their planned therapy should take the vaccine, while those who are on active treatment should discuss their options with their treating physician.

As a pediatrician, what is your opinion about COVID vaccine for children?

We know now that the current 2nd wave of the COVID pandemic in India has particularly affected children in much greater numbers with 10-15% of all cases seen are below 18 years. With the new Omicron strain spreading rapidly through the world, we are yet unsure what the impact it would have on our country and on our children. Vaccinating children is needed, but options in this age group are severely limited. We also need to consider that options of a booster dose for all age groups need to be considered, but there remain unanswered questions about the efficacy of current vaccines against the Omicron strain.

What do you foresee for the near future for your patients?

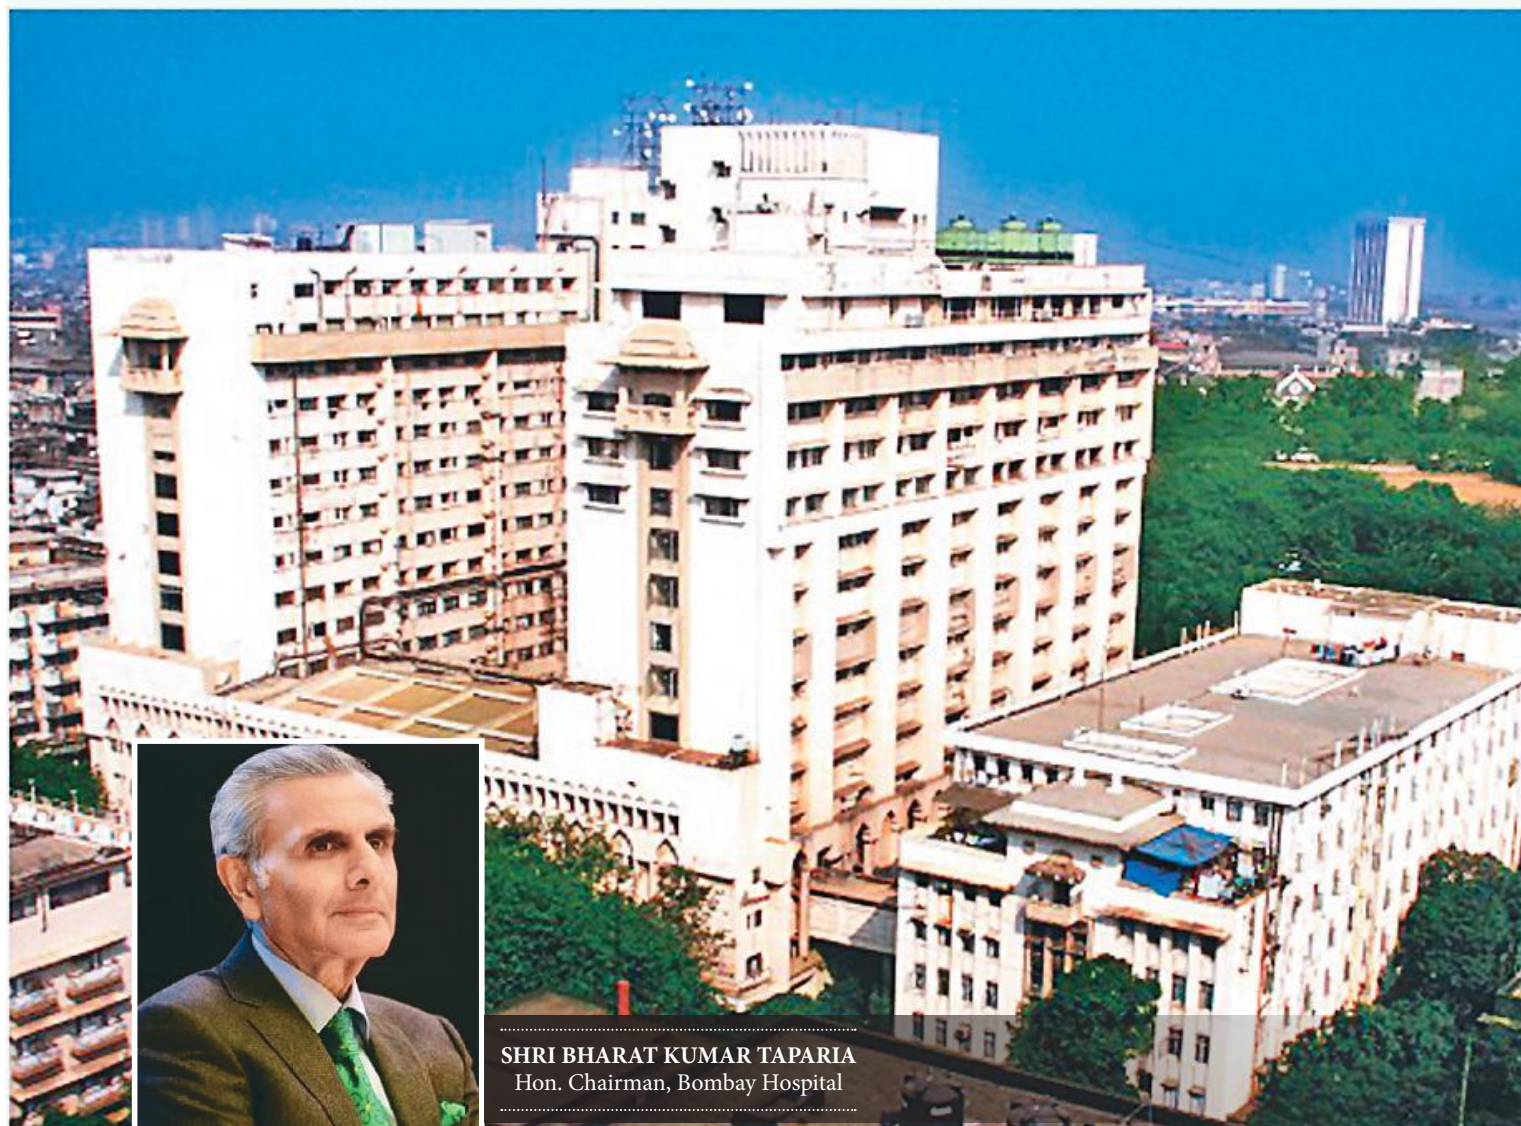

It is proving near impossible to predict how COVID would be affecting our lives in the future. What impact the Omicron strain would have our population is anybody's guess, but looking at the caseloads in other parts of the world, it is obvious that we need to be well prepared. I hope that with current and even better vaccines in the future, and with near universal coverage, they will be effective in preventing both COVID transmission and infection. But till that time, it is essential that measures such as mask wearing, physical distancing, and hand hygiene are followed scrupulously!

Medical Excellence, Charity & Fairness

BOMBAY HOSPITALS:

RE-DEFINING EXCELLENCE FOR OVER SIX DECADES

“The rich can get medical care anywhere because they can afford it, the poor obviously cannot pay for it. Therefore, it should be the endeavor of the Bombay Hospital to render the same level of service to the poor that the rich could get in a good hospital “.

SHRI BHARAT KUMAR TAPARIA
Hon. Chairman, Bombay Hospital

BOMBAY HOSPITAL, INDORE

BOMBAY HOSPITAL, JAIPUR

These were the words of Shri Rameshwardas Birla, the doyen of the Birla family, while forming the Bombay Hospital Trust, which was constituted on 06th September 1949, as a Public Charitable Trust, Registered under the Bombay Public Trust Act, 1950, with a main purpose of setting up hospitals.

Bombay Hospital Mumbai, the Flagship Hospital of the Trust was set up in 1952, with 450 beds, of which 150 beds were in the General Ward, for poor patients where no charges were levied for the bed, food, operation theatre or doctor's charges. The free outpatient department was also set up, where free consultation was provided to the needy patients.

Taking the legacy forward, Shri Bharat Kumar Taparia, Hon. Chairman has transformed Bombay Hospital Mumbai, into one of the finest Multi-Super-Specialty Tertiary Care Medical Centre in the country. The internationally renowned panel of doctors and consultants in every field of specialization has at its disposal cutting edge equipment supported by highly trained professional nursing staff and dedicated management team.

Bombay Hospital Mumbai is the centre of excellence for; Neuro Sciences, Cardiovascular Sciences, Nephro & Uro Sciences, Comprehensive treatment of Cancer and many more specialties. The patients are referred from all over the country and also from abroad.

With a view to cater to the medical needs from the Central part of India, the Bombay Hospital Trust under the leadership of Shri Taparia, has set up a State of Art 600 bedded Multi Super Speciality Tertiary care Hospital, at Indore, Madhya Pradesh, in October 2003. In less than 16 years, Bombay Hospital Indore has also become a centre of excellence and a referral hospital for whole of Central India.

“Bombay Hospitals in Mumbai and Indore have always emphasized on Medical Excellence. Our third hospital under the trust will be shortly commissioned at Jaipur, as Bombay Hospital Jaipur. Our aim is to build institutions rather than hospitals. We have a unique model where our doctors provide tertiary care treatment for all patients, in an academically stimulating environment”, says Shri Taparia.

Tertiary Care Multi Super Speciality Hospital

A NEW DESTINATION IN LUXURY HEALTHCARE

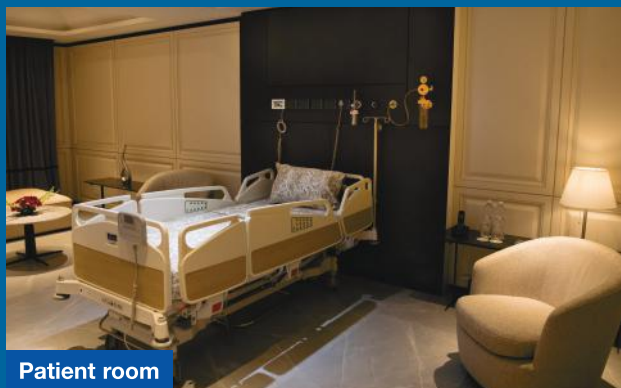

People are perhaps more proactive about maintaining and improving their health now more than at any time in human history. As Ruby Hall Clinic opened its newest offering — the Signature Suites — Bomi Bhote, the Chief Executive Officer said, "This is a rarified experience for guests who are accustomed to the finest things in life."

Ruby Hall Clinic's exclusive range of suites were created to enhance the hospital experience for patients and their visitors. "With our Signature Suites, we've revolutionised patient experience by being the first to offer luxury in healthcare at the most relaxing convalescence in Pune. Here, along with whisper-quiet halls, in hotel-like rooms and suites filled with amenities, patients receive renowned state-of-the-art treatment with a level of comfort that our hospital is known for," he says.

This is a rarified experience for guests who are accustomed to the finest things in life, says Bomi Bhote, the Chief Executive Officer.

Privacy is paramount within this lavish and idyllic sanctuary adorned in classical European design. Each suite comes with two palatial rooms, two spacious tiled bathrooms, built-in oxygen supply for emergency use, WiFi access as well as concierge and business services. A separate waiting lounge for guests, a sleek kitchenette and a 24-hour gourmet à la carte service comes with a varied menu to suit every patient's demand.
